

Martha's Day School

No Hurting

We do not use discipline which is humiliating, frightening or physically harmful at any time with children we are caring for. Napping, toilet training, or eating shall not be associated with punishment.

Corporal punishment, which is any method of physical discipline of the child including spanking with the hand or any implement, slapping, swatting, pulling hair, yanking by the arm, etc. will be strictly avoided even though parents may approve.

Failure to abide by these guidelines would be cause for revocation of our license or closure by the state of Kansas.
